WOTP Teacher Profile Workshop with Kit Malo

Exploring Our Unique Attributes
WOTP Teacher Workshop

Work Oriented Training Path (WOTP) teachers are important, unique educators. They bring particular skills to their role to best work with diverse challenges while supporting students.

In Exploring Our Unique Attributes, WOTP teachers will have an opportunity to reflect on these special skills and qualities and how you use these in your WOTP classroom.

This workshop is an opportunity to see what strengths we bring to our jobs (through feedback from self and other) while fostering moments of connection. Understanding what makes us special as WOTP teachers leads to a greater understanding of the spirit of the program and our role in it.
