

Conference Date _____ Subject _____

Student's Name _____

Conference

To Use Information

Context Description ▶**Conference Questions (questions asked)****Teacher Comments****Student Response to Teacher Comments****Systematizes the information-gathering process ▼**

- What strategies did you use to conduct your research?
- How did you decide what information would be useful?
- How did you decide what information to keep and what not to use?

Gathers information ▼

- How did you decide which information sources were appropriate?
- Did you compare the information from more than one source?
In what ways did you compare information?
- How did you determine whether your information was valid?
- Did you use your prior knowledge? How?
- How did you organize the information that you found?
- How did you decide if you needed more information?

Puts information to use ▼

- Did you gather enough information to answer your questions?
- Did you see any connections between what you already knew and the new information you learned? Give some examples.
- Can you think of other situations where you could use the information you found?
- How did you respect copyright rules?

Future Goals ▶
