

## **POP Reflection Questions**

### **End of term or year**

- Compare your last exploration to your first. Has anything changed? How and why?
- Putting effort into an exploration often gets you better results—what evidence can you give of your effort to prove this?
- What differences arose between your perception of certain aspects of a career and reality?
- In the future...You are in a job for many years and no longer love what you do. What do you do to re-establish that link between a job and being happy?
- When you selected careers to explore this term/year in POP, what influenced your decisions?
- Has working in the POP class influenced the types of summer jobs, part-time jobs or volunteer work you will pursue in the near future? In what way? How will you find and pick your student jobs?
- During the course of the year you explored several careers. Explain how your discoveries will influence choices you will make for your future (goals you will set, courses of study you might choose, careers you will learn more about, etc.).
- In what ways did your abilities help you reach your career exploration goals?
